

Request for Proposal (RFP)

HomeSteps maintains a diverse national vendor network to perform services for REO properties. We utilize a structured Request for Proposal (RFP) process for identification, bidding, comparison and selection when there is a business need to add vendors to our active network. Each RFP posted has a specific open and close date. Adherence to these dates must be strictly maintained to remain fair to all participants.

HomeSteps does not have any open RFPs at this time. Please check back periodically as our needs do change.

Thank you for your interest.
